HEART WARMING

As nights draw in, we look at stylish ways to warm your home, from modern fireplaces and striking log-burners to cast-iron radiators and seamless underfloor solutions

BOLD CHOICE The polished grey plaster of this freestanding fireplace makes a big impression in this beamed Suffolk barn by Hudson Architects, hudsonarchitects.co.uk. Logically, its sleek urban look should sit at odds with the rustic setting, but it works superbly by giving definition to the open-plan layout, while its pared-back simplicity and grand scale suit the barn's generous proportions.
